Examiner's statement of reasons for allowance

The following is an examiner's statement of reasons for allowance:

1. Claims 1, 28,32, and 38 are allowed because Prior art fails to show a multiple electron beam inspection system where the mechanical stage moves the substrate in a direction which is not parallel to either the x or y axis of the array of electron beam spots, such that as the substrate is moved across the spot array there are no gaps between the paths traced across the substrate.

The use of a mechanical stage to perform non-parallel scanning of an array of electron beams on a substrate being inspected is patentable.

2. Claims 2-20,22-27,29-31, and 34-44 are allowed because they are dependent upon allowed Claims 1, 28,32, and 38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
